PROFESSIONAL SUMMARY

Results-driven Project and Operations Manager with 5+ years of experience leading government programs and large-scale national initiatives across Saudi Arabia, PMP and CISC certified, with proven expertise in project execution, supply chain operations, logistics coordination, and operational workflow optimization, successfully managing strategic projects for the Ministry of Industry and Mineral Resources and contributing to Vision 2030 programs, adept at driving operational efficiency, managing cross-functional teams, and ensuring seamless delivery across all project phases in both public and private sector environments.

EDUCATION

Bachelor of Financial Management

Imam Muhammad Ibn Saud University Riyadh, Saudi Arabia

WORK EXPERIENCE

Project Manager - OceanX

Jun 2025 - Present

Ministry of Industry and Mineral Resources - Vision Office 2030

- Managed a strategic project for the Ministry of Industry and Mineral Resources, implementing comprehensive governance across policies, KPIs, and risk management, while developing the overall project and program strategy.
- Oversaw the full project lifecycle, improved team readiness, optimized resource utilization, and managed consulting activities to ensure alignment with strategic objectives.
- Conducting assessments and research to initiate four new projects under a single program, including concept development and early-stage operating model design, while strengthening coordination with internal teams and government partners.

Industrial Hackathon 2025 - Saudi Industrial Development Fund (SIDF)

- Directed end-to-end project operations including platform development, logistics planning, and team alignment.
- Coordinated with government and private stakeholders to ensure smooth execution across all project phases.
- Designed and implemented operational workflows that improved project readiness and delivery efficiency.

Operations Specialist - Elm (project based)

May 2023 - Feb 2024

Digitization of real estate wealth project - Vision Office 2030

- Managed end-to-end digital archiving operations for real estate deeds and instruments while preparing daily operational and performance reports to support PMO oversight, ensuring full compliance with quality standards and contributing to continuous workflow improvements.

Business Development Specialist

Jun 2021 - Nov 2021

Zakat, Tax and Customs Authority - (Tamheer Program)

- Provided logistics support and resolved shipment-related issues.
- Facilitated communication between internal teams and external stakeholders.
- Contributed to setting short- and long-term operational goals.

Customer Service

May 2018 - May 2020

Arab National Bank

- Enhancing customer responsiveness to improve overall service experience, while guiding and supporting team members to achieve shared branch goals and maximize performance.

FREELANCE & NOTABLE ENGAGEMENTS

Project Manager & Operations Consultant

Engineering Hackathon 2026 - Saudi Council of Engineers

Jul 2026 - Present

- Corrected faulty operational workflows for the hackathon through hands-on management and strategic guidance.
- Managed the consulting team and directly supervised their deliverables and operational logistics.
- Restructured action plans and timelines to ensure alignment with the council's objectives.

Operations Manager (Project-Based)

Sep 2024 - Nov 2024

Confidential Government Project

- Oversaw daily operations, resource allocation, and event readiness activities.
- Resolved operational bottlenecks and ensured consistent workflow across multiple teams.
- Supported planning activities and ensured alignment with project scope and requirements.

VVIP Relations Coordinator - FIFA World Cup 2022, Qatar

- Managed VVIP guest operations and logistics, including travel, accommodation, transportation, and on-ground coordination with relevant stakeholders.
- Oversaw on-ground operations, addressing guest requirements and operational challenges to ensure seamless service delivery.

Operations Supervisor - Monsha'at Forum (Beban23, Beban24)

- Managed consultant operations, including scheduling, resource allocation, access, and session coordination.
- Monitored on-ground execution and resolved operational requirements to ensure efficient and seamless delivery.
